DETAILED ACTION

Drawings

1. The drawings were received on 16 January 2007. These drawings are not accepted. The proposed drawing amendment has attempted to correct/improve the poor reproducibility of the originally submitted drawings on 05 August 2004, however, the new drawings appear to be hand written/drawn, and also unacceptable. For example, amended Fig. 5 is a plot with multiple data plots represented, it is unclear as to which data plot is which due to the hand drawn nature of the lines representing the data plots.
2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the original drawings filed 05 August 2004 and amended drawings filed 16 January 2007 are of unacceptable quality for reproduction purposes. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Objections

3. Claims 1-17 are objected to because of the following informalities: Claim 1 ends with a semicolon, replace with a period. In addition, there are numerous grammatical errors throughout the claims, some giving rise to 112 2nd paragraph rejections, as indicated below. The Examiner suggests that the Applicant perform a careful review of the claims. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. § 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 12-17 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 12 simply recites the limitation "the sample" in line 5. Similarly, in line 6, the limitation "the data" is recited. There is insufficient antecedent basis for these limitations in the claim. The Examiner suggests that the Applicant carefully review the claims to remove all objections and 112 issues.

Allowable Subject Matter

6. Claims 1-11 are allowed, however, objections to the claims are present.
7. Claims 12-17 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
